Brownsville, TX

PROJECTS

- **Newsletter App**

An application made using python that allows the user to read and parse a csv file. It will then use the emails obtained to send emails using Gmail's SMTP server.

<https://github.com/mariodelacruzjr/Newsletter>

- **Portfolio Website**

A responsive website using HTML, CSS, and Javascript

<https://github.com/mariodelacruzjr/Resume-Website>

EXPERIENCE

- **De La Cruz Jewelry**

June 2015 - Present

Working on all roles of jewelry creation and selling. These include sourcing materials, melting metals, organizing the website, marketing via online ads, selling in person at events, etc.

- **Wing Barn Restaurant**

May 2014 - October 2014

Worked as a server and a cashier at a local wing restaurant.

INTERESTS

- **Chess**

Playing chess since I was in highschool. Joined our highschool chess group that was made to practice chess and help encourage the youth to play

- **Video Games**

Playing video games since I was 3. Played and won many competitive school video game events and online events as well.
